

NACA, in association with the University of Johannesburg, is offering the following courses in Air Quality Management.

- **Introduction to Air Quality Management (2 weeks)**
(February, April, June, September, November 2010)
- **Introduction to Atmospheric Dispersion Modelling (4 days)** -
February/March 2010, with a focus on the AERMOD dispersion model
- **Advanced Techniques in Atmospheric Dispersion Modelling (5 days)** -
Calpuff model (date to be determined)
- **Introduction to Air Quality Policy and Regulations (3 days)** - subject to demand
- **Introduction to Ambient Air Quality Monitoring (4 days)** - subject to demand

Courses are formally accredited with the university, allowing successful participants to earn NQF credits. Future courses include emissions inventories, emissions licensing, and emissions testing.

Courses are offered on demand so please contact

Bev Terry (bev@naca.org.za) or
Mieke van Tienhoven (amvantienhoven@gmail.com)
for anticipated dates, or check the NACA website: www.naca.org.za
